Benchmark: iMoneyNet Fund Average™ – Government/Agencies Retail

FUND CHARACTERISTICS

Total Net Assets: \$3.5 billion

Number of Holdings: 188

7-Day Current Yield: 0.02%

7-Day Effective Yield: 0.02%

Average Maturity: 44 days

FUND FEATURES

- Strive to offer relative safety by investing in securities that are substantially (and at least 80%) securities issued or guaranteed as to principal and interest by the U.S. government or by its agencies, instrumentalities or sponsored enterprises.
- Seek to maintain an average maturity range of 20 to 60 days; this conservative range helps to avoid excessive yield volatility and unnecessary risk.
- Concentrate on income that may be exempt from state income taxes, dependent on tax laws of the state of residence.

Performance quoted represents past performance and does not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown here. Performance data current to the most recent month end is available at northernfunds.com or by calling 800-595-9111.

The Advisor has agreed to reimburse certain expenses of the Fund. The contractual reimbursement arrangement is expected to continue until at least July 31, 2011. After this date, the contractual arrangements may be terminated if it is determined to be in the best interest of the Fund and its shareholders. In the absence of fee waivers, yield, total return, growth since inception and dividends would have been reduced. Total return is based on net change in NAV assuming reinvestment of distributions. The 7-day current yield more closely reflects the current earnings of the Fund than the total returns. The Fund also includes voluntary fee waivers that may change or end at any time. The 7-day current yield would have been -0.45%.

Money Market Risk: An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

U.S. Government Guarantee: U.S. government guarantees apply only to the underlying securities of a Fund's portfolio and not the Fund's shares.

¹ The Net Expense Ratio, as reported in the most recent prospectus, includes contractual expense reimbursements that, if not extended, will end on July 31, 2011. The Fund also includes voluntary fee waivers that may change or end at any time.

Please see back page for calendar year returns and index definitions.

A Conservative Investment Approach

Northern Trust has built a tradition of strength and stability in investment management. Markets fluctuate over time, but we have remained steadfast in our disciplined, risk-managed investment philosophy.

² **iMoneyNet Fund Average™ – Government/Agencies Retail** category includes all the most broadly based of the government retail funds. These funds may invest in U.S. treasuries, U.S. agencies, repos or government-backed floating rate notes. The category average is the average of all of the funds in this category reported by iMoneyNet. It is not possible to invest directly in an index.

Please carefully read the prospectus and summary prospectus and consider the investment objectives, risks, charges and expenses of Northern Funds before investing. Call 800-595-9111 to obtain a prospectus and summary prospectus, which contain this and other information about the funds.
