MORNINGSTAR CATEGORY AVG MUNI NAT'L SHORT	0.44%	0.44%	4.25%	—	—	—	—

Performance quoted represents past performance and does not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown here. Performance data current to the most recent month end is available by calling 800-595-9111.

Performance calculations reflect voluntary fee waivers in effect. In the absence of fee waivers, total return, growth since inception and dividends would have been reduced. The 30-Day SEC yield would have been 0.84%. Total return is based on net change in NAV assuming reinvestment of distributions.

Bond Risk: Bond funds will tend to experience smaller fluctuations in value than stock funds. However, investors in any bond fund should anticipate fluctuations in price, especially for longer-term issues and in environments of rising interest rates.

Tax-Free/AMT Risk: Tax-exempt funds' income may be subject to certain state and local taxes and, depending on your tax status, the federal alternative minimum tax.

¹ The Net Expense Ratio includes voluntary expense reimbursements by Northern Funds' investment advisers that may change or end at any time.

² Tax-equivalent yields are based on an assumed tax rate of 35.0% for national municipal funds.

A Conservative Investment Approach

Northern Trust has built a tradition of strength and stability in investment management. Markets fluctuate over time, but we have remained steadfast in our disciplined, risk-managed investment philosophy.

³ **Barclays Capital 1-5 Year Blend Municipal Bond Index** is an unmanaged index of investment grade (Baa3 or better) tax-exempt bonds with maturities of at least one year and less than six years. It is not possible to invest directly in an index.

Modified Duration: Duration is a measure of a bond fund's sensitivity to changes in interest rates. The Fund's duration is calculated using the modified duration formula.

Quality Distribution: Credit ratings are issued by Standard & Poor's rating services and reflect the agency's assessment of the risk of a bond based on the issuer's capacity to meet its financial commitment on the bond. The ratings range from AAA (extremely strong capacity to meet its financial commitment) to D (in default).

Please carefully read the prospectus and consider the investment objectives, risks, charges and expenses of Northern Funds before investing. Call 800-595-9111 to obtain a prospectus, which contains this and other information about the funds.
